

ZAXIS-7 series

HITACHI

Reliable Solutions

# ZAXIS 95US/95USB

## HYDRAULIC EXCAVATOR

Model code : ZX95US-7

Engine rated power : 50.4 kW

Operating weight : 8 320 – 9 370 kg

Bucket capacity : 0.28 m<sup>3</sup>

Model code : ZX95USB-7

Engine rated power : 50.4 kW

Operating weight : Mono boom : 8 760 – 9 810 kg

2 Piece boom : 9 150 – 10 200 kg

Bucket capacity : 0.28 m<sup>3</sup>

# You're in control

You're at the heart of the design for our latest range of excavators. To continuously improve on previous generation machines we've focused on enhancing your experience in the cab as an operator.

We've considered the challenges you face as the owner of a successful business. And we've zoomed in on the ways in which we can support you over the life cycle of your machine.

By putting you at the heart of the Zaxis-7 range, we invite you to take control – over your workspace and your fleet. And by working in partnership, we will help you to create your vision.

Scan the QR code to view the product film of the ZX95US/USB-7 and discover their capabilities

# Complete control

The new Zaxis-7 compact excavators put you firmly in control, so you can feel assured of your machine's performance, and supported by the technological expertise and services that Hitachi provides.

The spacious cab interior provides a more comfortable working environment.

Sensors monitor oil continuously and contribute to preventative maintenance, helping to reduce downtime.

ConSite Pocket app allows you to manage and monitor your fleet remotely.

Options such as Hitachi ground engaging tools enable you to enhance the performance of your excavator.

Improved access to components ensures maintenance is quick and easy.

Integrated console and seat suspension gives a greater sense of control, and helps to reduce fatigue.

Visibility of the job site is excellent thanks to the Aerial Angle camera system and new LCD monitor.

Powerful Stage V-compliant engine does not need an SCR system, reducing life-cycle costs.

The short turning radius and short distance between the bucket and blade make it ideal for confined spaces.

The ECO gauge on the monitor indicates how to lower fuel consumption and reduce costs.

# Control zone

Enhanced comfort and safety features are at your fingertips in the refined cab of Zaxis-7 excavators, giving you the power to perform productively, with ease and reduced fatigue.

- 1 **Increased sweeping area of parallel link wiper** enhances visibility in difficult working conditions.
- 2 **Air conditioning and audio** are easily controlled via the monitor.
- 3 **Low-reflective colour 8" LCD monitor** is easy to view and navigate.
- 4 **USB socket and smartphone holder** helps you stay connected.
- 5 **Drinks holder** is easy to detach for cleaning.
- 6 **Blade lever** to adjust speed and angle quickly and easily.
- 7 **Ergonomically designed controls** are responsive and user-friendly, preventing fatigue.
- 8 **Bluetooth®** for hands-free calls and **DAB+** radio for music while you work.
- 9 **Multifunctional control panel** makes operation easier.
- 10 **Improved sound isolation** makes this one of the quietest cabs in the market.
- 11 **Adjustable armrest** – both angle and height are manually adjustable – and **coat hooks** take care of personal belongings.
- 12 **Integrated console and seat suspension** gives a greater sense of control and helps to reduce fatigue.
- 13 **Increased legroom** creates a more spacious cab.
- 14 **Optimal pedal layout** helps to reduce fatigue.

Operation is easy with ergonomically designed controls and switches.

Bluetooth® connection for hands-free calls while you work.

In control of your business

# Improve your profit

The success of your business depends on the reliability and efficiency of your construction machinery. With Zaxis-7 compact excavators, you can count on the highest quality, the ultimate in operating comfort and reduced running costs – all of which will have a positive impact on your bottom line.

You can look forward to increasing your profits thanks to the powerful performance of the new Zaxis-7 machines. Larger than the previous generation ZX85-6, they offer 10% greater stability and 4% greater digging force, boosting productivity.

Life-cycle costs are reduced with the new Stage V-compliant engine, which does not require an SCR system. This eliminates the need for urea, filter replacements and associated maintenance, saving you time and money. Your operators can also control fuel efficiency – and reduce costs – by using the all-new ECO gauge. This is clearly visible on the multifunctional colour LCD eight-inch monitor.

In addition, you can boost your profits by working on a wider range of projects thanks to their excellent versatility. Different attachments are quickly changed using the enhanced attachment support system on the monitor, and the factory-ready quick hitch system including piping. Choose from a variety of specifications to suit any job site, including mono and two-piece boom.

Your operators can work safely in confined areas thanks to the compact size, short turning radius and shorter distance between the bucket and blade. Grading and levelling are completed quickly and easily using the optional floating angle blade. And adjusting the blade angle left or right by up to 25 degrees increases precision and efficiency.

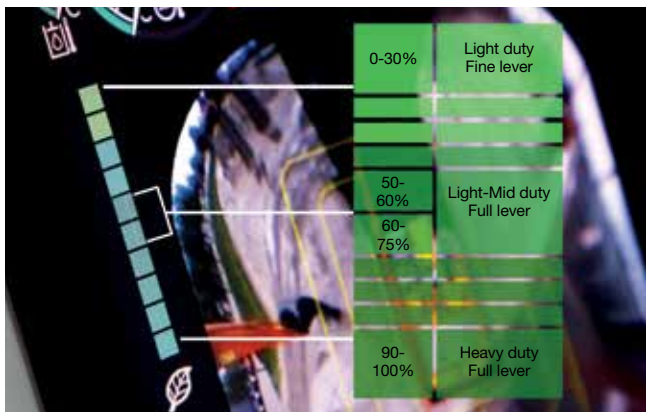

The optional floating angle blade is ideal for grading and levelling.

Short distance between the bucket and blade enhances efficiency and safety.

The ECO gauge helps to deliver better fuel consumption.

Increased lifting capacity enables greater versatility.

You're in control with a spacious, tidy and enjoyable working environment.

The cab is easy to access thanks to lower entry level and wide entrance.

The LCD monitor is easy to view with hi-res anti-glare screen.

## In control of your comfort

# Feel the difference

The redesigned, state-of-the-art Zaxis-7 excavator cab gives you the perfect working environment. The ultra-spacious ZX95US-7 and ZX95USB-7 offer you an industry-leading, first-class cab with the ultimate in comfort and quality, as well as some of the lowest noise levels in the market.

Feel the difference with the synchronised motion of the seat and console, designed to ensure you feel less tired at the end of the working day. Stretch out in the most spacious Hitachi Construction Machinery cab yet, with improved pedal layout and ample legroom. And sit comfortably thanks to the easily adjustable console height with three positions to choose from.

Easy operation comes from the new ergonomic design of the console and switches, and convenient access to controls. You can navigate quickly through the menu on the 8" LCD monitor with the multifunctional controller. The hi-res anti-glare screen is also easier to view, and the refreshed layout offers a clear display and desirable functionality – such as air conditioning, DAB+ radio and Bluetooth®.

With more storage for your personal belongings, such as your coat, smartphone and drink, you'll feel instantly relaxed and ready for your shift. Added practical functions to the joysticks, such as wiper, engine idle and audio mute controls, will make your working day effortless and enjoyable.

Ergonomic multifunctional control panel provides easy access.

In control of your environment

# Increase your safety

Your ability to work safely is vital, not only for your own wellbeing, but also for the successful completion of any project. To protect yourself and your machine from potential hazards, the new Zaxis-7 excavators give you a superior view of your surroundings, so you can see the job site from all angles.

The visibility you enjoy from the cab includes an exceptional 270-degree bird's-eye view with the Aerial Angle camera system. You can choose from five image options to view the machine's immediate environment, which enables you to control your own safety – as well as that of those around you.

To help you to work more confidently and efficiently, even in the most challenging of conditions, Zaxis-7 excavators are fitted with some impressive new features. From the optional ambient light that makes the camera easier to view, to the repositioning of the lights on the boom and cab to illuminate the job site more effectively, you'll have the visibility you need when it matters most.

The fuel tank has also been repositioned to make it easier and safer to refill.

Control your safety with the 270-degree view Aerial Angle camera system.

Choose between different image layouts to suit your working environment.

Relocated boom and cab lights improve visibility in challenging conditions.

Designed for durability and easy maintenance, Zaxis-7 excavators increase uptime and reduce the total cost of ownership.

Convenience access to all filters in one compartment.

The battery is easy to replace.

The radiator is easily accessible for cleaning.

In control of your assets

# Boost your uptime

Completing a project on time and on budget depends on the ability of your construction equipment to perform all day, every day. That's why Hitachi Construction Machinery owners have profited from generations of ultra-reliable and durable machinery – and the Zaxis-7 range is no exception.

The latest excavators have been built to last, so that you can remain in complete control of your assets. They have been tested rigorously and continuously at dedicated facilities in Japan with the goal of significantly boosting your uptime.

Downtime is minimised by the priority given to easy maintenance and cleaning – saving you time and money. The spacious engine compartment makes it easy to carry out servicing and maintenance, the radiator is easily accessible, and the battery is easy to replace. All filters are conveniently available in one compartment for quick and easy replacement.

## In control of your fleet

# Manage your machine

Hitachi Construction Machinery offers a wide range of after-sales services to help you feel in total control of your fleet and workload. These initiatives give you access to vital data and tools to manage your machine.

Remote monitoring systems Owner's Site and ConSite send operational data daily via GPRS or satellite from your excavator to [www.globaleservice.com](http://www.globaleservice.com). This includes: ratios of operating hours to enhance efficiency; fuel consumption to manage running costs; and machine location for planning purposes. ConSite summarises the information in a monthly email.

The ConSite Pocket App sends you real-time alerts for issues arising with your machine. You'll receive recommendations on what to do and step-by-step help guides. The app also enables you to see the location of your fleet.

A unique innovation continuously monitors the quality of engine and hydraulic oil, 24/7. Data is transmitted daily via two oil sensors to Global e-Service. These detect if the oil quality has deteriorated, due to contamination or low viscosity. If this happens, you and your authorised Hitachi Construction Machinery dealer will receive an alert.

This innovative feature provides accurate estimations of when oil changes are required. It reduces maintenance and unscheduled downtime, and gives you peace of mind thanks to scheduled servicing and ultimately a higher resale value.

The unique oil sensor reduces maintenance and downtime.

A wide range of data on Global e-Service enhances efficiency.

The alerts on the ConSite Pocket App provide real-time information.

Hitachi offers a wide range of after-sales services for planning maintenance and managing running costs.

Hitachi Construction Machinery provides the highest level of technical support.

Minimise downtime with Hitachi Construction Machinery Genuine Parts.

HELP extended warranties and service contracts provide optimal performance.

Hitachi Construction Machinery Premium Rental enables you to pay as you earn.

In control of your uptime

# Protect your investment

If your machine will be working in severe conditions, or you want to minimise repair costs, you can take advantage of a unique extended warranty programme called HELP (Hitachi Extended Life Program) and comprehensive service contracts. These can help to optimise performance, reduce downtime and ensure a higher resale value.

We apply the same technological expertise to our wide range of high-quality parts as we do our machines. As a result, you can minimise unscheduled downtime and ensure maximum availability.

The parts range includes Hitachi Construction Machinery Genuine Parts, Performance Parts, filters, undercarriages, and remanufactured components. We also offer ground engaging tools and buckets, which have been manufactured to the same exacting standards.

As your business grows, you may need to extend your fleet to meet the demands of new contracts. Why not try before you buy with the Hitachi Construction Machinery Premium Rental programme? This gives you immediate access to Zaxis-7 excavators for a period of one month to a year.

Along with the reliability, quality and service you would expect from the Hitachi Construction Machinery brand, Premium Rental offers flexible contracts and fixed costs that make it easier for you to budget.

In control of your  
performance

# GET more from your machine

Designed to work in perfect harmony with your machine, our durable hydraulic breakers, buckets and ground engaging tools (GET) will increase your profit by maximising productivity and uptime. Manufactured to the same high standards as all Hitachi Construction Machinery equipment, they offer unrivalled reliability and exceptional performance.

## Buckets

You can increase the versatility of your excavator by choosing the right bucket for the job. For loading light materials or heavy-duty work, our buckets can be customised to meet your needs. You have a wide range of options to choose from – including GD, HD and XHD buckets with different capacities and widths – and quick coupler connections such as CW, pin grabber and S-coupling are also available.

## Ground engaging tools

You can enhance the digging power and productivity of your excavator with Hitachi Construction Machinery GET. Quick and safe to install and replace, they fit precisely to your attachments and can be tailored to suit the task. Using GET can reduce your maintenance costs and downtime, lower fuel consumption and enhance the overall performance of your machine.

## Breakers

High-performance hydraulic breakers – approved by Hitachi Construction Machinery – are perfectly suited to compact excavators. They are easy to maintain and user-friendly, and their high-quality materials ensure a long lifetime. This means reduced maintenance costs, fewer replacement parts and minimal downtime.

Hitachi buckets, GET and breakers are manufactured to the same high standards as all Hitachi construction equipment.

Hitachi Construction Machinery offers a wide variety of attachments to suit your application.

Hitachi breakers are lightweight with high impact energy.

Hitachi GET include self-sharpening teeth and reliable adapters to ensure a precise fit.

EH dump trucks and EX ultra-large excavators

Special application excavators

Create your vision

---

# In control of your world

When you take delivery of your new machine, you become part of the latest generation of a global family. With a 70-year heritage in designing hydraulic excavators, and a reputation as the industry's leading mining machine manufacturer, the Hitachi Construction Machinery network will give you access to a range of exceptional equipment.

Hitachi Construction Machinery excavators, wheel loaders, rigid dump trucks and special application machines incorporate advanced technology and pioneering expertise. Made at state-of-the-art facilities, they are built to the highest standards. You'll also benefit from market-leading services and initiatives, such as Premium Rental and Premium Used, which have been created to enhance your experience as a customer.

Whatever vision you wish to create, Hitachi Construction Machinery has the product, people, solutions and services you need to make it become a reality – and empower you to take control of your world.

UPPERSTRUCTURE	
<b>Revolving Frame</b>	
D-section frame for resistance to deformation	
<b>Swing Device</b>	
Axial piston motor with planetary reduction gear is bathed in oil. Swing circle is single-row. Swing parking brake is spring-set/hydraulic-released disc type.	
Swing speed	10.1 min <sup>-1</sup>
Swing torque	16.6 kNm
<b>Operator's Cab</b>	
Independent spacious cab, 1 025 mm wide by 1 654 mm high, conforming to ISO* Standards. Reinforced glass windows on 4 sides for visibility. Front windows (upper and lower) can be opened. Reclining seat.	
* International Organization for Standardization	

UNDERCARRIAGE	
<b>Tracks</b>	
Tractor-type undercarriage. Welded track frame using selected materials. Side frame welded to track frame	
<b>Numbers of Rollers on Each Side</b>	
Upper rollers	1
Lower rollers	5
Track shoes	40
<b>Travel Device</b>	
Each track driven by 2-speed axial piston motor. Parking brake is spring-set/hydraulic-released disc type. Automatic transmission system: High-Low.	
Travel speeds	High : 0 to 5.0 km/h
	Low : 0 to 3.1 km/h
Maximum traction force	65.2 kN
Gradeability	70% (35 degree) continuous

SERVICE REFILL CAPACITIES	
Fuel tank	125.0 L
Engine coolant	13.1 L
Engine oil	12.3 L
Travel device (each side)	1.2 L
Hydraulic system	100.0 L
Hydraulic oil tank	52.0 L

ENVIRONMENT		
Engine Emissions	EU Stage V	
<b>Sounds Level</b>		
Sound level in cab according to ISO 6396 :2008	ZX95US-7	LpA 70 dB(A)

# MACHINE CAPACITIES

## ZX95US-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
  2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
  3. The load point is the center-line of the bucket pivot mounting pin on the arm.
  4. \*Indicates load limited by hydraulic capacity.
  5. 0 m = Ground.

- A: Load radius  
B: Load point height  
C: Machine capacity

For machine capacities, subtract installed attachment and quick coupler weight from machine capacities.  
To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick coupler.  
Optional feature may affect machine performance.

# MACHINE CAPACITIES

## ZX95USB-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
  2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
  3. The load point is the center-line of the bucket pivot mounting pin on the arm.
  4. \*Indicates load limited by hydraulic capacity.
  5. 0 m = Ground.

- A: Load radius  
B: Load point height  
C: Machine capacity

For machine capacities, subtract installed attachment and quick coupler weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick coupler.

Optional feature may affect machine performance.

Standard and optional equipment may vary by country, so please consult authorized dealer for details.

\* Double washer is only when equipped with wide-view wipers.

\*\* Rain guard cannot be install when Cab front top guard and cab ceiling tower guard ISO (OPG) Level II conform ance (ISO 10262: 1998) are installed.

\*\*\* Only when Mono boom is equipped, it is not applicable and when 2 piece boom is equipped, it can be installed as option.

\*\*\*\* Hitachi Construction Machinery cannot be held liable for theft, any system will just minimize the risk of theft.

Prior to operating this machine, including satellite communication system, in a country other than a country of its intended use, it may be necessary to make modifications to it so that it complies with the local regulatory standards (including safety standards) and legal requirements of that particular country. Please do not export or operate this machine outside the country of its intended use until such compliance has been confirmed. Please contact authorized dealer in case of questions about compliance.

These specifications are subject to change without notice.

Illustrations and photos show the standard models, and may or may not include optional equipment, accessories, and all standard equipment with some differences in color and features. Before use, read and understand the Operator's Manual for proper operation.
